

Mum, Can I ride a real horse please?

Have you ever been asked that question? Well I was!

Both my daughters were horse mad and so keen to ride a 'real' horse. To be honest, I put them off for a couple of years; I didn't know where to start. Then a friend recommended Todd at Dalson Park. She said her daughter had started lessons six months ago and was loving it! What she felt was great was the care and attention each child received and it wasn't just about riding a horse, her daughter had learnt how to lead it, saddle and groom it as well.

So I called Dalson Park and Todd and his staff were great. Both girls have been riding for over 10 months now, I have watched them blossom into great little riders, so confident and calm, managing to walk, trot and canter a range of horses. The older one is even learning how to jump.

One of the great things I love as a parent is the pony camps, run in December and January each year during the school holidays. The girls love them, they get their 'own' horse, are able to feed and groom them, have riding lessons and great fun as well.

So if you are being pestered, being asked repeatedly when your child can 'ride a real horse' – then call Dalson Park today. You won't regret it! Call 0448 034 514 anytime or email riding@dalsongpark.com.au.

Holiday camp placements filling fast.
